PROJECT EXPERIENCE

Donation Tracker

- Improved UI and reliability when entering donation data at local church.
- Single-page app using plain JavaScript
- Uses Google Sheets API to store data; OAuth with JWT's for authentication.

WORK EXPERIENCE

Teacher — Parkway School District, St. Louis, Missouri

August 2016 - Present

- Increased student engagement & retention by introducing spoken Latin to Latin language classes.

Instructor — University of Oxford, Oxford, United Kingdom

September 2014 - June 2016

- Managed strong personalities in online courses, correcting misunderstandings of difficult material while maintaining welcoming environment for all students.

Postdoctoral Researcher — University of Oxford, Oxford, United Kingdom

October 2011 - September 2014

- Planned, carried out, and published high-quality original research in ancient Greek philosophy.
- Worked with team to meet ambitious goals: running multiple weekly seminar series, a steady stream of invited speakers, co-organized five international conferences, and co-edited volume of new research.
